CSF Collection Date: Requested Test:									
Requested Test: Creutzfeldt-Jakob Disease (CJD) Testing - 14-3-3 and RT-QuIC *No specific tube type required Biochemistry	•								
Biochemistry									
Protein: g/L Red Cell Count: x10°/L Glucose: mmol/L White Cell Count: x10°/L Please see table below for testing criteria Tube number being sent for testing: CID: Tube number microbiology performed on:									
Glucose: mmol/L White Cell Count: x10 ⁶ /L Please see table below for testing criteria Tube number being sent for testing: CJD: Tube number microbiology performed on: Red Cell Count White Cell count Other		Biochemist	stry			Microbiology			
Tube number being sent for testing: CID: Tube number microbiology performed on:		Protein:		g/L Red					
Tube number being sent for testing: CID: Tube number microbiology performed on: Red Cell Count			•			te Cell Count:	x10 ⁶ /L	-	
Red Cell Count White Cell count Other	Please see table below for testing criteria								
14-3-3 ELISA <2500 x 10 ⁶ /L and non-haemolysed n/a CSF must be clear & colourless, not spun, in any tube type	Tube number being sent for testing: CJD: Tube number microbiology performed on:								
Adays at 4°C – freeze immediately CSF must be clear & colourless, not spun, in any tube type 4 days at 4°C – freeze immediately CSF must be clear & colourless, not spun, in any tube type 4 days at 4°C – freeze immediately	Red Cell Co		ount White Cell count			Other			
Note: Specimens which are macroscopically haemorrhagic, and/or have RBC or WBC counts outside of the listed parameters will not be tested. CJD Testing storage and shipping conditions	14-3-3 ELISA		-	n/a					
Note: Specimens which are macroscopically haemorrhagic, and/or have RBC or WBC counts outside of the listed parameters will not be tested. CJD Testing storage and shipping conditions	RT-QuIC	<1250 x 10 ⁶ /L		<10 x 10 ⁶ /L					
Address CSF Specimens to: Australian National CJD Registry (ANCJDR) The Florey, Kenneth Myer Building 30 Royal Parade Gate 11, Rear loading Dock The University of Melbourne, Parkville, VIC 3052 CHECKLIST PRIOR TO SENDING CSF SPECIMEN Biochemistry & microbiology results are within specified limits and are recorded in the table Specimen is double bagged and packed securely (tube intact and firmly sealed). Copy of original doctor's request slip is provided with specimen. CJD CSF Specimen Data Sheet (this form) completed and attached to the test request documents. Specimen is correctly addressed to The Australian National CJD Registry The ANCJDR have been advised of the incoming specimen (contact details below). Costs for Diagnostic Testing CJD Panel: Domestic Referrals: No Charge International: \$500	Note: Specimens which are macroscopically haemorrhagic, and/or have RBC or WBC counts outside of the listed parameters will not be tested.
