

National Dementia Diagnostics Laboratory (NDDL) Cerebrospinal Fluid (CSF) Specimen Data Sheet

Alzheimer's Disease Biomarker Testing

Accredited for compliance with NPAAC Standards and ISO 15189 NATA Accreditation Number 19256

This form must accompany CSF specimens referred for AD testing

Address CSF Specimens to: National Dementia Diagnostics Laboratory (NDDL) The Florey, Kenneth Myer Building

30 Royal Parade Gate 11, Rear loading Dock The University of Melbourne, Parkville, VIC 3052

PLEASE SEE OVERLEAF: Full NDDL contact details and important information for CSF referrals on Page 2

CHECKLIST PRIOR TO SENDING CSF SPECIMEN

- Biochemistry & microbiology results are recorded in the table on page 1
- □ Specimen is double bagged and packed securely (tube intact and firmly sealed).
- □ Copy of original doctor's request slip is provided with specimen.
- □ NDDL CSF Specimen Data Sheet (this form) completed and attached to the test request documents.
- □ Specimen is correctly addressed to NDDL (as on page 1).
- □ The NDDL (AD, NfL testing) have been advised of the incoming specimen (contact details below).
